TAI Club News & Information

New Members – John Conklin & son David Conklin
Pending Members - Ray Brooks and Marty Gammons

Please welcome and introduce yourself to our new club members

CPR & Emergency First Aid Training

We now have 9 members certified in CPR and emergency medical treatment from the training in July 20th in Thomasville. We will be considering, as a club, some type of lockable enclosure outside of the Shed to secure a First Aid Kit. One idea is to have the gate key fit the lock. We can discuss at our next club meeting.

New Gate Lock and Keys

A new exterior industrial Master-lock is on order for the gate. We will be getting 70 keys cut for distribution to all club members and specific others that need a key to enter (e.g.: Sam our land neighbor, Danny the Bushhog guy, etc.). We would like to have the majority of the new keys distributed before we change the gate lock. My guess it will be 2 to 3 weeks before the gate lock can be changed. We will discuss dates at our next club meeting.

Revised Rules, Regs & By-Laws

I want to thank all the club members for their input and emails that helped shape our revised By-Laws, Rules and Regulations. The voting on the revisions were approved unanimously with 29 members voting. This has been sent to the AMA for recording. Again, thanks to all our club members.

New Website

Rick, our new webmaster, is very close to turning on our new website layout. Rick had a few of us testing it this week and all seems to work fine. Only a few minor tweaks remain. It has a totally new look with pulldown selections and an editable mowing list. Rick or I will put out more information when it is ready go.

New Lights in the Shed

Fred "the Juice Man" Towler has reworked the lights in the shed and added a couple of new lights. It is brighter than the previous setup which will hopefully help us see any Copperheads lurking in the shadows. Seriously, Gary saw and took a picture of a 4-foot Copperhead laying in the building just as you opened the door, so please keep your eyes open for snakes when you enter the shed

Spectator / Pit Separator Fence

It is being considered to remove the fence with the 3 attached wires that separates the spectator area from the pit area. AMA does not specify any barrier between the two areas, but AMA does state, "this can be a simple lines separation or nice viewing area complete with a grand stand. We will review this and optional barriers at our next club meeting

CALENDAR OF EVENTS

8/11/24 – TAI Club Meeting
Robert Satow RC Flying Field
Meeting Sunday at 4:00p

9/8/24 – TAI Club Meeting
Robert Satow RC Flying Field
Meeting Sunday at 4:00p

10/13/24 – TAI Club Meeting
Robert Satow RC Flying Field
Meeting Sunday at 4:00p
Alternate depending on Weather
Arcadia Family Restaurant
